## **ABOUT THE WORKSHOP**

Join speaker William Stillman for an insightful, inspiring “inside-out” workshop. As a person with Asperger’s Syndrome, Bill provides a non-clinical, humanistic overview of the autism spectrum from the perspective of those who experience it: What is autism? What is it like to have autism? What is considered best practice in supporting others’ communication, sensory sensitivities, mental health and movement differences? He shares the many differences among people labeled with autism, including perspectives from his friends on the spectrum as well as his own experiences. More importantly perhaps, Bill shows us how we are all more alike than different, and participants will leave the day having experienced their *own* “autisms.”
